*Welcome*

Thank you for scheduling a consultation with me. My staff and I are committed to making your visit with us a pleasant and beneficial experience. Following is some information about my practice and what to expect when you arrive. Please read this to insure that your experience with us is professional and or exceeds your expectations.

## **WHAT TO BRING WITH YOU**

1. A valid photo ID
2. Your insurance card
3. A list of your prescription medications
4. Eyedrops if you use them
5. Prior to a cataract evaluation appointment,  
I recommend using preservative free artificial tears  
3 times a day from now until your appointment.

In order to make your visit most productive, please complete the enclosed forms to the best of your ability before you arrive.

## **ESTIMATED TIME OF YOUR VISIT**

If this is your first time in my office, please allow up to two hours for your visit. I take pride in the thoroughness of my exams and will take the time to answer your questions. If you have another commitment scheduled on the same day as your visit with me, please leave sufficient time to safely get to your next scheduled activity. Also consider that dilation (which can last up to six hours) can impair your driving ability. Bringing a driving companion is advisable.
